

## Pequannock Township School District Reopening 2021/22 Comparison Chart

The purpose of this chart is to help students, staff, and families see how the plan for our opening to the 2021-2022 school year will differ from our reopening plan for the previous school year.

Our plans will hinge on public health metrics and guidance from agencies that make determinations for public schools in New Jersey, most particularly the NJDOH; as such, please note that **all topics are subject to change**. While we hope that life returns to something resembling normal, we will also be prepared for more challenging circumstances, again.

Topic	2020-2021 Opening	2021-2022 Opening
